# **Qualified Default Investment Alternative (QDIA) Annual Notice**

# **Important Information**

You are receiving this Annual Notice to inform you of how your contributions under the plan(s) for CHAMPLAIN COLLEGE may be invested and how such contributions will continue to be invested if you have not provided complete instructions.

# **How Will Your Contributions Be Invested**

You may have a balance or current contributions under the plan(s) listed below for CHAMPLAIN COLLEGE that are invested in the default investment option(s). If you are participating in the plan but did not make an election choice, you were automatically defaulted into the plan's default investment option(s). Your contributions will continue to be invested in the designated option(s) unless you provide complete investment instructions. Please disregard this notice if you already provided or updated your investment instructions.

| Plan Name:                            | Default Investment Option:            |
|---------------------------------------|---------------------------------------|
| CHAMPLAIN COLLEGE UNMATCHED DEFERRALS |                                       |
| Retirement Choice Plus                | Champlain College Years-to-Retirement |

Champlain College Years-to-Retirement Moderate Model Series Plan 406586

# How You Can Change the Way Your Contributions are Being Invested:

You have the right to change the investment allocation of your account at any time. You can elect to direct the investment of your existing balances and future contributions to any of the plan's available investment options. This includes being able to transfer out of the plan's designated default option(s) to another investment option available in the plan. If you have been defaulted into the designated default option(s) and you do not provide complete investment instructions, your contributions and existing balance will continue to be invested in the designated option(s).

To change how your account is invested, among the plan's offered investment choices, you can contact TIAA at **800-842-2252.** Consultants are available MON-FRI, 8 AM - 10 PM (ET) and SAT, 9 AM - 6 PM (ET).

# **Please Note the Following:**

The enclosed Fact Sheet(s) provides additional information, including the investment objectives and strategy, fund/account performance, risk and return characteristics, and fees and expenses. A list of the Plan's available investment options and a copy of the prospectus or information statement for each fund may be obtained from **http://www.TIAA.org**. If you do not have a TIAA account, you can still access more information about your plan's investments by going to **TIAA.org/performance** and entering your Plan ID, 406586.

Distributions from tax-deferred plans before age 59½, severance from employment, death, or disability may be prohibited, limited, and/or subject to substantial tax penalties. Different restrictions may apply to other types of plans.

# How to Contact Us

More information about retirement plan fees and expenses is available at **TIAA.org/fees** or by calling TIAA at **800-842-2252.** Consultants are available MON-FRI, 8 AM - 10 PM (ET) and SAT, 9 AM - 6 PM (ET).

# **Foreign Address Participant Notice**

You're receiving this notice along with a Qualified Default Investment Alternative (QDIA) notice because the address we have on file for you is outside of the United States, Puerto Rico, or military and diplomatic posts such as an APO or DPO. As mentioned within the notice, you may have an existing balance, or contributions may have been defaulted into, your mutual fund at the direction of your employer.

Restrictions may prohibit TIAA from processing mutual fund plan allocations of current or future contributions at your affirmative direction. Your plan contributions may, however, be allocated to a default mutual fund at the direction of your employer. In the event of such a default, you may not be able to transfer or exchange existing mutual fund holdings to other mutual funds under your plan.

Aside from these restrictions, please note that you can continue to maintain your existing mutual fund holdings in your account. Additionally, you are able to:

- · Continue to reinvest dividends and capital gains.
- Transfer or exchange existing mutual fund holdings to a group annuity contract, if any are offered by your plan.
- Liquidate mutual fund holdings in your account and request that the funds be paid directly to you or rolled over to a permissible tax deferred account, subject to applicable law and the terms of your plan (Keep in mind that your account is in an employer-sponsored retirement plan and withdrawals are subject to the terms of the plan and applicable law).

If your address has changed or changes to a location within the United States (including Puerto Rico and military or diplomatic posts such as an APO or DPO address), please update this information online by accessing your account at **TIAA.org** or by contacting your plan administrator.

# Need Help?

If you have questions about the plan changes, TIAA can help. Phone: 800-842-2252\* MON-FRI, 8 AM - 10 PM (ET) and SAT, 9 AM - 6 PM (ET)

\* This is a United States telephone number. Please ensure you have international calling capability. An additional per-minute surcharge may apply for all calls placed internationally. These charges are subject to market fluctuation and may change at any time. For more information, please contact your telephone service provider. To place an international phone call, you must first dial the International Direct Dialing (IDD) code, which may vary by Country or Phone Company, followed by the Country Code of the call destination country.

## Investment Asset Allocation<sup>1</sup>

<sup>1</sup>Asset Allocation data is presented based on the allocations of the models in this series.

#### What are TIAA RetirePlus Select models?

Each TIAA RetirePlus Select model consists of investment options available through the retirement plan's investment menu. The specific combination of options in each model seeks to provide a balance of investment growth and stability. Periodically, your account is rebalanced to more conservative asset allocations as retirement nears.

| Years to<br>Retiremen | 16              | 14              | 11              | 8               | 5                 | 2               | -1              | -4              | -7             | -9                              |

AS OF 9/30/2024

TIAA RetirePlus Select<sup>®</sup>

#### **Investment Objective and Strategy**

This model series is for participants who are within a specific years-to-retirement range. The strategy follows a moderate glide path that targets an average overall equity level relative to typical target date mutual funds, and strives to balance long-term capital appreciation and preservation. This model series is for participants who seek a balance between capital preservation and long-term growth, and who are comfortable with a moderate overall level of investment risk.

#### Performance

The returns quoted represent past performance, which is no guarantee of future results. Returns and the principal value of your investment will fluctuate and you may experience gain or loss. The performance shown for the models are the performances of hypothetical accounts invested in accordance with the Model during the relevant time periods and reflects the weighted average return of the underlying investments assuming an annual rebalance from the model inception date. The net asset values used to calculate the hypothetical account performance are compiled using values for underlying funds as of the prior business day and current business day for fixed annuities. Actual and current performance may be higher or lower. For current performance information, including performance to the most recent month-end, call 800-842-2888. Performance reflects waivers or reimbursements of certain expenses at the underlying investment level in effect during the applicable time periods. Absent these waivers or reimbursements any not apply in the future. Performance shown is cumulative for periods under one year.

| Expense Example††   | \$0.74   | \$0.74   | \$0,84  |

\* The Total Operating Expense Ratio of a plan participant's model-based account is based on the total expense ratio (including fees) of each underlying investment blended in accordance with the Target Allocations for the Model, plus the amount of Program-related fees and other expenses allocated to each model-based account by the Plan Fiduciary. For information concerning each underlying investment's fees and expenses, see its most current prospectus or similar offering document.

++ This is an example to help you compare the cost of investing in underlying investments based on the Model with the cost of investing in other investment options. The example assumes that you invest \$1,000 in underlying investments based on the Model with the cost of investing in other investment options. The example assumes that you invest \$1,000 in underlying investments based on the Model for a one year period and then redeem all your investments in the underlying investments at the end of the one year period. The example also assumes that your investment has a 5% return during the year and that the expenses of each underlying investment, before expense reimbursements, remain the same. However, your actual costs may be higher or lower.

# **Important Information**

TIAA RetirePlus Select® (the "Program") is an asset allocation program that includes formulaic asset allocation models that a plan participant may choose to guide the investment of his or her account into underlying mutual funds and annuities (the "underlying investments"). The plan fiduciary selects the specific underlying investments available under its plan to represent the various asset classes in the models. An independent third party advisor engaged (and paid) by Teachers Insurance and Annuity Association of America ("TIAA") developed the target asset class allocations for the models and the Program is administered by TIAA as plan recordkeeper. In making the Program available to plans, TIAA is not providing investment advice to the plans or plan participants.

This material is for informational, educational or non-fiduciary sales opportunities and/or activities only and does not constitute investment advice (e.g., fiduciary advice under ERISA or otherwise), a securities recommendation under all securities laws, or an insurance product recommendation under state insurance laws or regulations to invest through a model or to purchase any security or advice about investing or managing retirement savings. It does not take into account any specific objectives or circumstances of any particular customer, or suggest any specific course of action.

Plan participants should consider the investment objectives, principal strategies, principal risks, portfolio turnover rate, performance data, and fee and expense information of each underlying investment carefully before directing an investment based on the model. For a free copy of the program description and the prospectus or other offering documents for each of the underlying investments (containing this and other information), call TIAA at 877-518-9161. Please read the program description and the prospectuses or other offering documents for the underlying investments.

Investment decisions should be made in consultation with a plan participant's personal advisor based on his or her own objectives and circumstances. The models are not "investment companies" within the meaning of the Investment Company Act of 1940, as amended, and the models do not issue securities within the meaning of the Securities Act of 1933, as amended, but may be chosen by a plan participant to guide his or her investment decisions. The target allocations for a model-based account will change over time as the number of years to the target retirement date decrease. For information regarding the changes to the target allocations please contact TIAA. An account's actual allocation percentage to an underlying investment may vary from the target allocations due to the performance of the underlying investments or other factors. Accounts invested in accordance with the model will be rebalanced to the applicable target allocations periodically. The underlying investments included in a model are subject to change and may not be representative of the current or future underlying investments for the model.

No guarantee—Neither the models nor any investment made pursuant to the models are deposits of, or obligations of, or guaranteed or endorsed by TIAA or their affiliates, or insured by the Federal Deposit Insurance Corporation, or any other agency. There is no guarantee that the underlying investments will provide adequate income at and through retirement and investors may experience losses. Investors should not allocate their retirement savings to the underlying investments unless they can readily bear the consequences of such loss.

Assets allocated to the underlying investments based on the model will be invested in underlying mutual funds and annuities that are permissible investments under the plan. Some or all of the underlying investments included in the model may be sponsored or managed by TIAA or its affiliates and pay fees to TIAA and its affiliates. In general, the value of a model-based account will fluctuate based on the performance of the underlying investments in which the account invests. For a detailed discussion of the risks applicable to an underlying investment, please see the prospectus or disclosure document for such underlying investment.

TIAA RetirePlus Select is administered by Teachers Insurance and Annuity Association of America ("TIAA") as plan recordkeeper. TIAA-CREF Individual & Institutional Services LLC, Member FINRA, distributes securities products. If offered under your plan, TIAA and CREF annuity contracts and certificates are issued by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), New York, NY, respectively. Each is solely responsible for its own financial condition and contractual obligations. Transactions in the underlying investments invested in based on the Model on behalf of the plan participants are executed through TIAA-CREF Individual & Institutional Services, LLC, Member FINRA.

Mesirow is not affiliated with TIAA. Mesirow Financial refers to Mesirow Financial Holdings, Inc. and its divisions, subsidiaries and affiliates. The Mesirow Financial name and logo are registered service marks of Mesirow Financial Holdings, Inc. ©2024, Mesirow Financial Holdings, Inc. All rights reserved. Advisory services offered through Mesirow Financial Investment Management, Inc. an SEC registered investment advisor.

TIAA RetirePlus Select® is a registered trademark of Teachers Insurance and Annuity Association of America-College Retirement Equities Fund, 730 Third Avenue, New York, NY 10017.

# A Note About Model Risks

Assets allocated to underlying investments based on the Model will be invested in underlying affiliated or unaffiliated mutual funds and annuities that are permissible investments under the plan. In general, the value of model-based accounts will fluctuate based on the share or unit prices of the underlying investments in which they invest. Assets in model-based accounts are subject to various types of risks, which may include but are not limited to:

**Underlying Investment Risk**, the assets invested based on a Model will be invested directly in underlying mutual funds and annuities that are permissible investments under the plan and are subject to asset allocation risk. Additionally, the assets are proportionally subject to the risks of those investment instruments' portfolio securities. Such risks may, among other things, include asset allocation risk, market risk, company risk, foreign investment risks, interest rate risk, credit risk, illiquid security risk, prepayment risk and extension risk as described more fully below.

Active Management Risk, the risk that a fund may underperform because of the allocation decisions or individual security selections of its portfolio manager; Asset Allocation Risk, the risk that the selection of investments and the allocation among them will result in the fund's underperformance versus similar funds or will cause an investor to lose money; Call Risk, the risk that, during periods of declining interest rates, an issuer of a bond may "call" (i.e., redeem) a bond prior to maturity, and the associated risk that bondholders will be reinvesting the proceeds at a lower interest rate; Company Risk, the risk that the financial condition of a company may deteriorate, causing a decline in the value of the securities it issues; Credit Risk, the risk that an issuer of bonds may default; Current Income Risk, the risk that the income a fund receives may unexpectedly fall as a result of a decline in interest rates; Emerging Markets Risk, the risk that securities issued in developing markets, where there is greater potential for political, currency and economic volatility, may be less liquid than those issued in more developed countries and foreign investors in these markets may be subject to special restrictions which could have an adverse impact on performance; Extension Risk, the risk that a security's duration will lengthen, due to a decrease in prepayments caused by rising interest rates; Foreign Investment Risk, the risk that securities of foreign issuers may lose value because of erratic market conditions, economic and political instability or fluctuations in currency exchange rates, which may be magnified in emerging markets; Growth Investing Risk, the risk that, due to their relatively high valuations which are generally a function of expected earnings growth, growth stocks will be more volatile than value stocks and such earnings growth may not occur or be sustained; Income Volatility Risk, the risk that the income from a portfolio of securities may decline in certain interest rate environments; Index Risk, the risk that a fund's performance may not match that of its benchmark index; Interest Rate Risk, the risk that interest payments of debt securities may become less competitive during periods of rising interest rates and declining bond prices; Large-Cap Risk, the risk that large companies may grow more slowly than the overall market; Liquidity Risk, the risk that illiquid securities may be difficult to sell at their fair market value; Market Risk, the risk that the price of securities may fall in response to economic conditions; Mid-Cap Risk, the risk that stocks of mid-capitalization companies may have greater price volatility, lower trading volume and less liquidity than the stocks of larger, more established companies; Prepayment Risk, the risk associated with the early unscheduled return of principal on fixed-income investments, such as mortgage-backed securities; Risks of inflation-indexed bonds, the risks that interest payments on inflation-indexed bonds may decline because of a change in inflation (or deflation) expectations; Small-Cap Risk, the risk that the securities of small companies may be more volatile than those of larger ones, and they are also often less liquid than those of larger companies because there is a limited market for small-cap securities; Style Risk, the risk that a fund's investing style may lose favor in the marketplace. Technology Risk, the risk that the various systems and technologies that the Model Service relies on for its operation and oversight may be subject to certain defects, failures or interruptions, including, but not limited to, those caused by malware, viruses and power failures. For a detailed discussion of risk, please consult the individual models' fact sheets.

#### Models' Underlying Investment Performance and Expenses

#### **Underlying Investments' Performance**

The performance data quoted represents past performance, and is no guarantee of future results. Your returns and the principal value of your investment will fluctuate so that your mutual fund shares and annuity account accumulation units, and shares or units of the investment vehicles in your model-based accounts, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance current to the most recent month-end, call 800-842-2252 or visit TIAA.org/planinvestmentoptions and enter your plan ID. Performance may reflect waivers or reimbursements of certain expenses. Absent these waivers or reimbursements, performance results would have been lower. Since Inception performance shown is cumulative for periods less than one year.

|--|----------------|---------|---------|--------|--------|--------|---------|-----------------|-------|----------------------------|
| Fixed Return Investments   | Inception Date | 3 Month | YTD     | 1 Year | 3 Year | 5 Year | 10 Year | Since Inception | Rate  | Guaranteed<br>Minimum Rate |
| TIAA Traditional Retirement Choice Plus Annuity (RCP) Class (RCP) <sup>4,5</sup> | 6/1/06         | 0.96%   | 2.92%   | 3.99%  | 3.69%  | 3.45%  | 3.44%   | 3.62%           | 4.25% | 2.75%                      |

The current rate shown applies to premiums remitted during the month of October 2024 and will be credited through 2/28/2025. This rate is subject to change in subsequent months. Up-to-date rate of return information is available on your plan-specific website noted above or at 800-842-2733.

TIAA Traditional guarantees your principal and a minimum annual interest rate. The current guaranteed minimum interest rate is 2.75% for premiums remitted in March 2024 through February 2025, and is effective through February 2025. The account also offers the opportunity for additional amounts in excess of the minimum interest rate. When declared, additional amounts remain in effect for the twelve-month period that begins each March 1 for accumulating annuities and January 1 for payout annuities. Additional amounts are not guaranteed for the future years. All guarantees are subject to TIAA's claims paying ability.

For Retirement Choice Plus (RCP) contracts, and subject to the terms of your employer's plan, lump-sum withdrawals and transfers are available from the TIAA Traditional account without any surrender charges. For certain RCP contracts, any transfer from TIAA Traditional to a competing fund must first be directed to a non-competing fund for a period of 90 days. After 90 days, transfers may be made to a competing fund, including transferring back to TIAA Traditional. (TIAA Contract form IGRSP-02-ACC/TIAA Certificate form IGRSP-CERT3-ACC). After termination of employment additional income options may be available including income for life and IRS required minimum distribution payments.

The Contractholder (typically your employer as the sponsor of your plan) has the right to remove TIAA Traditional as a plan option. If elected, the contract's entire TIAA Traditional accumulation will be paid out in 60 monthly installments, without any surrender charge and will be reinvested at the direction of your plan sponsor. Please refer to your contract certificate for additional details.

#### **Underlying Investments Important Information**

<sup>1</sup> Accumulations in funds not managed by TIAA may be subject to administrative charges. These charges are subject to change. Please review current documents related to your plan.

- <sup>2</sup> A contractual arrangement is in place that limits certain fees and/or expenses. Had fees/expenses not been limited ("capped"), currently or in the past, returns would have been lower. Expense Cap Expiration Date: February 28, 2025, Please see the prospectus for details.
- <sup>3</sup> A contractual arrangement is in place that limits certain fees and/or expenses. Had fees/expenses not been limited ("capped"), currently or in the past, returns would have been lower. Expense Cap Expiration Date: July 31, 2025. Please see the prospectus for details.

4 Interest on accumulations credited to TIAA Traditional in the accumulating stage includes a guaranteed amount (2.75% for current RCP contracts through February 28, 2025 for current premiums in RCP),

plus additional amounts that may be declared on a year-by-year basis and are not guaranteed for future years. For information about current interest rates on additional amounts, visit our website at **TIAA.org**. Guarantees under TIAA Traditional are backed by TIAA's claims-paying ability.

<sup>5</sup> Retirement Choice Plus (RCP) TIAA Contract form Series - IGRSP-01-84-ACC and IGRSP-02-ACC / TIAA Certificate Series - IGRSP-CERT2-84-ACC and IGRSP-CERT3-ACC.

#### **Underlying Investments Fees and Expenses**

Some Plans may allocate plan costs to participants to offset the cost of recordkeeping and other plan services. When the Plan allocates these costs at the investment-level there may be a plan services fee or credit displayed in the "Shareholder fees & restrictions" column. If the costs are allocated at the plan-level (regardless of investment) it is not displayed here. Fee and expense information for the variable return investment options include the Total Annual Operating Expenses expressed as a percentage and a dollar amount based upon a \$1,000 accumulation both as net (after) and gross (before) of expenses. Total Annual Operating Expenses investment, expressed as a percentage of its assets, as a dollar amount or in basis points. These are costs the investor pays through a reduction in the investment's rate of return. Expense information shown is based on the most recent information available, but may not reflect all updates and may differ slightly from the prospectus due to rounding. Please consult the most recent prospectus or offering document for more detailed information.

For more information on the impact of fees and expenses associated with your plan, please visit TIAA.org/fees. Fees are only one of many factors to consider when making an investment decision.

**Underlying Investments Information** 

#### About the Underlying Investments Benchmark

A benchmark provides an investor with a point of reference to evaluate an investment's performance. One common type of benchmark used to compare investment performance is called an index. Indexes are unmanaged portfolios of securities designed to track the performance of a particular segment of the market. For example, a large-cap stock fund or account will usually be compared to an index that tracks a portfolio of large-cap stocks. Conversely, a bond fund or account is typically compared to an index that tracks a portfolio of bonds that is comparable to the fund or account's portfolio in terms of credit quality, maturity and liquidity. Each mutual fund or account shown in the chart includes performance information for an index that the advisor determined provides a fair comparison of the fund or account's investment performance. Indexes are for comparison purposes only. You cannot invest directly in any index. Index returns do not reflect a deduction for fees or expenses.

#### **Underlying Funds' Data Provider Disclosure**

Unless otherwise noted, data on nonproprietary investment products, including performance, Morningstar Category and expenses, is provided by Morningstar, Inc. All other data provided by Teachers Insurance and Annuity Association of America - College Retirement Equities Fund. Benchmark performance shown across proprietary and nonproprietary funds/accounts is provided by TIAA with the exception of Since Inception periods calculated using a nonproprietary fund's inception date. TIAA reserves the rights to all proprietary data herein, and is not responsible for any damages or losses arising from any use of this information.

Data Provided by Morningstar, Inc. ©2024 Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Neither TIAA nor its affiliates has independently verified the accuracy or completeness of this information.

The Morningstar Category classifies a fund based on its investment style as measured by underlying portfolio holdings (portfolio statistics and compositions over the past three years). If the fund is new and has no

portfolio, Morningstar estimates where it will fall before assigning a more permanent category. When necessary, Morningstar may change a category assignment based on current information.
